

THE ESA APP DEVELOPER LAB

ESA App Camp 2014 - Register until 21 July

Are you an innovative developer from Europe or Canada with experience in app development?

The countdown is on: **registration for the ESA App Camp ends on 21 July (9:00 Berlin Time) 2014.**

Being invited to the ESA App Camp means one week of creative work with like-minded people, gaining insights into the European Space Programmes, learning how to enrich mobile applications with satellite data, and developing your business opportunity.

Apply now to become 1 in 20 developers from all over Europe!

ESA invites you to spend one week at the European Space Agency in Frascati near Rome, 8 – 15 September 2014

Gain insights into the services and data from the European space programme Copernicus

Use a dedicated API for Earth observation data

Develop an App concept and prototype using Earth observation data

Win over the jury!
