Key:

Static visual variables

1 size; 2 form; 3 value; 4 colour; 5 grain; 6 orientation; 7 brilliance; 8 transparency; 9 aura; variables employed to show the phenomenon are underlined

Entities / measurement levels

α point entities; β line entities; γ area entities;

a - nominal scale measurable entities; b - ordinary scale measurable entities; c - quantitative scale measurable entities

Methods of presentations

S α b – Ordinary point signatures,	S β c – Quantitative line signatures,
K α b – Ordinary point choropleth maps,	K β c (cs) - Quantitative line choropleth maps,
Kd α b – Ordinary point cartodiagrams	Kd β c (cs) - Quantitative line cartodiagrams
Kc – Dot method,	KaBb – Ordinary Bertin's choropleth map,
S α c – Quantitative point signatures,	Ky β – Ordinary area choropleth maps,
K α c (cs) – Quantitative point choropleth maps,	KDy β – Ordinary dasimetric choropleth maps,
Kd α c (cs) - Quantitative point cartodiagrams,	KaBc - Quantitative Bertin's choropleth map,
S β b – Ordinary line signatures,	Ky α (cs) - Quantitative area choropleth maps,
K β b – Ordinary line choropleth maps,	KDy α (cs) - Quantitative dasimetric choropleth maps,
Kd β b - Ordinary line cartodiagrams	S α a – Qualitative point signatures
I α – isoline maps,	M α Ca – Chorochromatic method maps,
S β a – Qualitative line signatures,	M α Za – Range maps

Age groups

[1] [2] [3] [4] [5] [6] [7] - correct combination of variables for labelled age groups

{1} {2} {3} {4} {5} {6} {7} {8} conditional combination of variables for labelled age groups

Correct
combination

Combination
inaccessible
due to the
absence of *colour*
in the case
of achromatic
e-papers

Combination
inaccessible
due to the
absence of *aura*
in the case of part
of chromatic
e-papers

Combination
inaccessible
due to the absence
of *colour* and *aura*
in the case
of achromatic
e-papers
